Budget

Instructions

This form is used to apply to individual State of Illinois discretionary grant programs. Applicants should submit budgets based upon the total estimated costs for the project including all funding sources. Pay attention to applicable program instructions, if attached. The applicant organization should refer to 2 CFR 200, "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards" cited within these instructions.

You must consult with your Business Office prior to submitting this form for any award restrictions, limitations or requirements when filling out the narrative and Uniform Budget Template.

Although the degree of specificity of any budget will vary depending on the nature of the project and State of Illinois agency requirements, a complete, well-thought-out budget serves to reinforce your credibility and increase the likelihood of your proposal being funded. A well-prepared budget should be reasonable and demonstrate that the funds being asked for will be used wisely. The budget should be as concrete and specific as possible in its estimates. Make every effort to estimate costs accurately. Your budget should justify all expenses and be consistent with the program narrative.

You can add budget line items directly below.
